qualified PT faculty members for teaching physical therapy

- Create Educational Infrastructure for Learning Physiotherapy at partner Universities
- Pilot PT master programs based on new content and innovative teaching approaches and graduate up to 200 masters in PT

**Activities:**

- Analysis of existing models of PT programs
- New PT master curriculum development
- Teaching, Learning and Assessment Resources creation (including e-resources for key modules and qualification exam)
- Intensive Mentorship Programs for faculty members
- Creation University rehabilitation lab, Mini-Library on physical therapy at each university
- Piloting and revision of new PT master curriculum, teaching, learning and assessment tools
- Piloting innovation teaching approaches (interprofessional education, vertical teaching, rehabilitation labs)
- Project management, monitoring and quality evaluation activities
- Dissemination (through online media and live tools)

**Expected results:**

- I. Revised and updated the university level PT bachelor study program of four years.
- II. New PT master study program offering advanced professional competence in different physiotherapy specializations (e.g., orthopaedics, APA, sport).
- III. The group of 40 qualified/certified physiotherapists will be prepared for partner HES. The core teaching staff will be built capable of teaching PT according European standards. Staff will be formed by retrained faculty members of legacy qualifications, by newly graduated PTs and by invited EU experts.
- IV. Competency profile for physical therapist satisfying international requirements will be identified. This profile would be approved at national level and become the mandatory basis for all Ukrainian universities wishing to provide physical therapy study program.
- V. New PT master students will have possibility to participate in the IMP in EU and through Erasmus+ mobility through Erasmus programs and from own costs.
- VI. Medical care system would change to accommodate new professionals in physiotherapy. The partnership with the Health Ministry in this project will facilitate the recognition of the PT as profession.
- VII. In five years there will be up to 800 graduates of Consortium universities or up to 5000 graduates of all universities, with good employment prospects (current job market needs is about 35,000 PT)
